OUR PHILOSOPHY

*The power of
music changes
lives. It helps to
bring people
together to build
a stronger
community .*

Surrey Music Academy

Our aim is for you to develop your skills by offering world-class tutors and a nurturing environment set in an inspiring location – whilst having a fun time you won't forget!

Our end of the week concerts give you a chance to shine in front of your family and friends, but whilst we encourage everyone to take part in all performances and activities, we will not force anyone to participate if they don't want to for whatever reason. However, we hope our friendly and accepting community will lead all young musicians to take part, even if it is slightly outside of their normal comfort zone!

We believe music is important in life, especially for the younger generation. Music belongs to everyone, no matter where you come from; Music is a universal language. This means that, regardless of what country someone is from, they will be able to understand and enjoy a song without knowing the lyrics. Since music doesn't rely on words, it has the ability to connect two different cultures in a way that no other form of communication can. Music can break down boundaries, even where people don't speak the same language.
